PROFILE

Creative technologist with experience in front-end development, user interface design, and user experience design. Passion for creating beautiful, well-thought-out landing pages that provide a clear direction and joyful online experience. Critical thinker and effective problem solver looking to build professional large scale applications that are both modern and intuitive.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, SASS

Frameworks: Vue, React, Nuxt.js, jQuery, TailwindCSS, Bootstrap, Joomla CMS, YOOtheme Pro

Technologies: RESTful APIs, Gulp, Git, Chrome Dev Tools, Sketch, Affinity Photo, Shopify, BigCommerce, Mailchimp, Google Suite

PROFESSIONAL EXPERIENCE

NEP Services

July 2017 – Present

Lead Web Developer

- Redesigned the company's website while translating wireframes into working code using Vue and Nuxt.js.
- Developed 50+ websites while maintaining and updating client requests on over 300+ websites.
- Provided training and guidance to new hires on best practices in web development.
- Performed QA on co-worker's websites while debugging any issues with Chrome Dev Tools and checking for cross-browser and device functionality.
- Created unique design templates with reusable components using Joomla CMS and YOOtheme Pro.
- Set up E-commerce stores for clients using Shopify and BigCommerce.
